Okay, thank you. I do think Mindy wants to see it as we propose sending it on up, so I'd like to go ahead and test the revised approach now. I also suggest adding a lead-in like this if you think it's helpful:

Several comments addressed EPA's policy on Endangered Species Act consultation for 404 assumption. The EPA response below addresses the comments on the policy as they relate to Florida's request to administer a CWA Section 404 program.

I think that's fine. we were thinking we would move everything into an essay-type format after review. But if you think it's best to do that now, that's fine with me.

So, the way I understand what OW thinks will go over best, I think the format of this needs to have all of the comments described up front, followed by one long EPA response. Would you two be good with me just going ahead and doing that in the clean copy for routing – just a text moving exercise?

Hi Rosemary – Kavita and I are done with section 10c if you want to move it forward. We do have a note to go back and double check the comments in at least one place,

Ex. 5 AC/DP

Ex. 5 AC/DP

Ex. 5 AC/DP

We're still working on 10-10b and may be able to get that done today.

Let us know if you have any questions.

Thanks,
Alexis
